

Micromedex a comprehensive, evidence-based database that provides detailed information about drugs, diseases, toxicology, and patient education materials.

Key features of Micromedex:

- Clinical resources to support informed evidenced-based decisions.
- Interface providing trusted evidence and global guidance with a Pharmaceutical perspective.

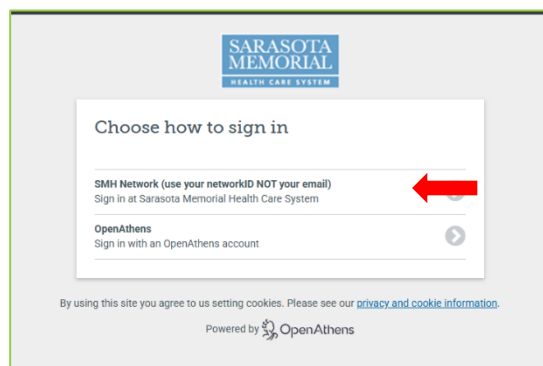

Off Network Login

Step 1

Step 2

Micromedex and CareNotes are both available under **Micromedex**.

Choose SMH Network sign in option. Use your NetworkID NOT your email.

For assistance or inquiries email Medical-Library@SMH.com.

You can access quick help guides for all tools in Micromedex using [Help](#), and in-depth tutorials at the [Resource Center](#). Both are at the top righthand corner of every page.
